

Adeni Alumnus Returns to Homeland

At the beginning of this month, Mr. Sultan Abdu Nagi arrived from Beirut after he had successfully completed his study and gained Licentiate in Political Science from the American University.

It is worth mentioning that Mr. Sultan was a full member in all his educational stages. During his academic study, he could fulfill his educational stages in three years in lieu of four years and through this success he could also join his name to the list of honor in the University. The success and honor he fulfilled, raised to distinction to Aden and its citizens.

And then, with open arms, we greet Mr. Sultan in his homeland and among his citizens, hoping that he will be an operative supporter in building his country.
